Paulson SkillTest-Training Assessment Tool

Paulson's SkillTest is a comprehensive needs assessment program that measures the processing knowledge of your workforce. SkillTest is easily taken from any computer with Internet access. Each test taker is given a secure and confidential password. Tests are 30 to 40 questions long and the results are returned to management in a thorough, confidential report that pinpoints areas of strength and weakness. With this information, training can be targeted to specific employee needs resulting in the maximum return on your training investment.

Recommended For:

All Personnel

Perfect to assess employees' and candidates'

actual knowledge level.

Use Paulson SkillTest to:

- ◆ Target the right training to the right employee
- ◆ Screen current and prospective employees for their process knowledge

Test Reports include:

- ◆ Identification of strong and weak subject matter areas for each employee
- ◆ Injection Molding tests are available in English, Spanish and Mandarin

PAULSON'S INTERACTIVE LEARNING SYSTEM

- More Effective Training: Get a 40% increase in knowledge retention and comprehension using interactive technology.
- Scheduling Flexibility: Training is available to all shifts, 24 hours a day without affecting production.
- Automatic Record Keeping: You can test and track employee progress automatically.
- No Instructor Required: Fully interactive format provides either a self-paced, one-on-one or classroom learning environment.

- Reduced Training Costs: Train on company time without loss of production. No dedicated instructor, no overtime and no overhead add up to large savings.
- Increased Motivation: Immediate feedback and personal involvement are key factors in training effectiveness.
- Complete Curriculum: The interactive library provides a complete career path curriculum for all employees.

Paulson's fully interactive training program explains the relationship between machine controls, plastic behavior and molded part properties in full motion video, text, audio and graphic animation.
